

HI KROME ANGELS!

When I started proposing artists for a remix, I wanted someone from Return to the Source - the Chakra Journey. I also wanted similar art at the museum in Ibiza that the booklet has.

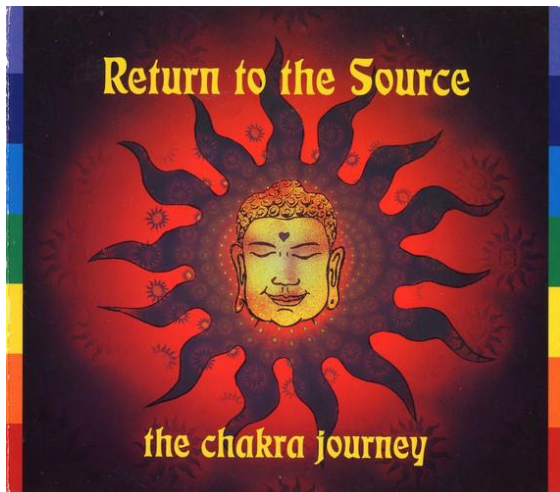

Water sound in the background of my song "Water Bubbling in Space" is sampled from track 2-2 or 2-3 from [this record](#).

A 500-meter-long tunnel with a three-floor garage will be built for the museum, located in a forest in northern Ibiza. The tunnel/garage will be decorated.

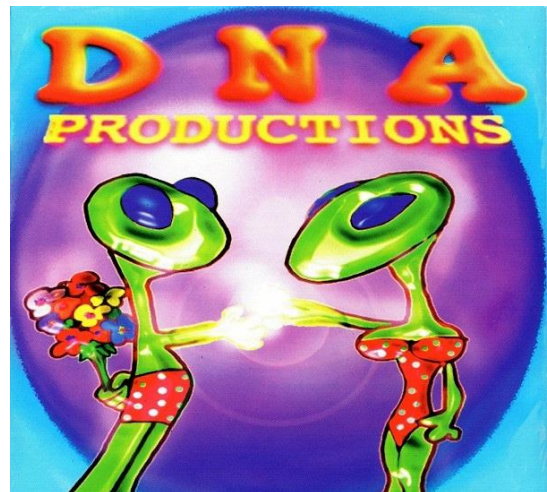

Latin American artists will paint the "speech room" in which my original version will be recorded. A virtual jungle will also be created by them. Latin Americans also decorate the rest of the buildings in the museum.

Your remix gets a speech room. The recording of your video will also be in the tunnel. Your room is connected to the tunnel.

I have listened to Return to the Source – the Chakra Journey with Transwave, among others.

I have also listened to DNA productions with [Dino – Tango Electro](#), which I also remixed. Remix is not released on record and will not be.

I'm going to make a music video in the Netherlands too. That's why I think Krome Angels was a good choice for a remix.

Best regards

VICTOR KARLSTEDT
